### ***JSSI Introduces Tip-to-Tail® Coverage for AgustaWestland AW139***

*LABACE 2015 – São Paulo, Brazil*-- Jet Support Services, Inc. (JSSI), the leading provider of hourly cost maintenance programs for the business aviation industry, has announced its Tip-to-Tail® Program coverage is now available for the AgustaWestland AW139.

JSSI's trademarked Tip-to-Tail Program offers an all-inclusive, comprehensive maintenance program that drives down costs and provides budget stability. JSSI first introduced its Tip-to-Tail hourly cost maintenance program in 1997 by adding Airframe and APU coverage to its legacy Engine Programs. Tip-to-Tail is ideal coverage, and the only single source solution for the entire aircraft, covering virtually every assembly and system.

"By adding the AW139 Airframe coverage to our traditional Engine Program for the Pratt & Whitney Canada PT6C-67C engines, we effectively create the most comprehensive hourly cost program in the industry," stated Raymond Weiser, Helicopter Program Specialist for JSSI. "In today's environment, it is tough for helicopter operators to predict their maintenance budget, as the potential for unexpected expense is extremely difficult to estimate on your own. This is where JSSI's more than 25 years of experience comes into play. JSSI Programs stabilize the maintenance budget, while the JSSI team of Technical Advisors act as advocate and advisor to the entire flight operation," added Weiser.

"Our goal at JSSI is to deliver innovative programs for production aircraft, like the AW139, that enhance the OEM warranty, reduce our clients' overall cost of maintenance, increase residual value of their aircraft, and ultimately provide a customer service experience that is second to none," commented Neil Book, President and Chief Executive Officer for JSSI.

**Protection from the high cost of maintenance.®**

Today, JSSI offers Tip-to-Tail, Engine, Airframe, and APU coverage for approximately 350 different aircraft models including the AgustaWestland AW109 and AW119 series helicopters. New AW139 helicopter buyers also have the option of enrolling in a stand-alone JSSI Engine Program. For more details about these programs, please contact a JSSI representative at [sales@jetsupport.com](mailto:sales@jetsupport.com) or call them at +1-312-644-4444.

### **About Jet Support Services, Inc.**

For more than 25 years, JSSI has been the only hourly cost maintenance provider covering virtually all makes and models of business aircraft, engines and APUs. JSSI provides its customers with comprehensive, flexible and affordable financial tools for managing the often unpredictable costs of operating and maintaining nearly all types of turbine-powered aircraft, including jets, turbo-props and turbine-powered helicopters. As the creator of the revolutionary Tip-to-Tail® Program, JSSI is the only single source provider of this trademarked service. JSSI serves customers globally and manages maintenance services through its worldwide infrastructure of certified technical advisors.
